

# CCM Codes

Your practice can be reimbursed for providing important care management services to Medicare beneficiaries with:

- Two or more chronic conditions that are expected to last at least 12 months and place the patient at significant risk of death, acute exacerbation/decompensation, or functional decline.
- One complex chronic condition lasting at least 3 months, which is the focus of the care plan, the condition is of sufficient severity to place patient at risk of hospitalization or have been the cause of a recent hospitalization, the condition requires development or revision of disease-specific care plan, the condition requires frequent adjustments in the medication regimen, and/or the management of the condition is unusually complex due to comorbidities.

Five hundred medicare patients will potentially add 250K in revenue by using Sargas' No Up-front Cost Program. Additionally, Sargas' Remote Physiological Monitoring program can bring in 600K more annually.

As per CCM codes below, your practice can be separately reimbursed for important care management services that it provides to fee-for service Medicare patients with two or more chronic conditions that are expected to last at least 12 months and place the patient at significant risk of death, acute exacerbation/decompensation, or functional decline.

**CCM, PCM & TCM will help you deliver the coordinated care your patients deserve!**

Chronic care management (CCM), Principal Care Management (PCM) and Transitional Care Management (TCM) contributes to better health and care for individuals with chronic conditions. For dual eligible beneficiaries in one Department of Health and Human Services led pilot program, integrated care resulted in beneficiaries being 48 percent less likely to have a hospital stay, 26 percent fewer hospital stays, and 38 percent fewer emergency room visits. You have the opportunity to be separately paid for important services while improving your Medicare patients' health outcomes by utilizing our compassionate Sargas Patient Care Services and Chronic Care Cloud™ platform.

## No Up-front Cost Program Enroll Now

To Sign up for Chronic Care Management(CCM), Principal Care Management(PCM), Transitional Care Management (TCM) and Remote Patient Monitoring(RPM), please go to [www.spacinternational.com/sign-up-physician.php](http://www.spacinternational.com/sign-up-physician.php) and we will call you and help you execute your agreement or call 844-926-CARE for more information.

CCM info: <https://spacinternational.com/chronic-care-management-services.php>

RPM info: <https://spacinternational.com/remote-patient-monitoring.php>

## How to Enroll

After identifying and mailing a welcome letter to eligible patients from your system and obtaining their verbal consent, they will receive an email with additional steps and information for completing enrollment into chronic care management. You will be one step closer to providing the care management your patients need and deserve.

## Advantages of Sargas

- **Your patients will gain access to a dedicated Sargas case manager who will provide regular updates to their comprehensive care plan and timely availability of patient health information.** Organized management of care transitions and easy access to their care team can improve patient self-management.
- **Encouraging patients to use CCM and PCM services gives them the support they need between visits.** Easy access may help patients think about their health more and become more conscious of activities such as taking their medications and other tasks.
- **CCM and PCM services are patient-centered, high value services with the potential to improve patient outcomes via our Sargas Chronic Care Management Cloud™ portals.** With time tracking, patients consents, care plans and everything you need to bill chronic care management in one place, you know your patients will always have the care they need and deserve 24/7.
- **Increase your bottomline by using Medicare approved CPT codes:** G2058, 99487, 99489, 99490, 99491 for CCM and G2064, G2065 for PCM
